

I.R.C.P. 85.b. Computation of Amount of Claim.

Idaho Rules of Civil Procedure Rule 85(b). Computation of Amount of Claim.

In computing the amount of the claim for purposes of the Small Lawsuit Resolution Act, the dollar limitation is applied separately to each party, regardless of how that party's claim is designated, and excludes requests for costs and attorney's fees. The complaint must contain a statement that the amount of the claim does not exceed the statutory limitation of the Act.
